

product information

ULTRAGLIDE PLUS

Alkaline cabinet glasswash detergent

General Description and Features

ULTRAGLIDE PLUS is an alkaline, foam-free detergent for the careful cleaning of glasses in automatic and semi-automatic glass washing machines.

ULTRAGLIDE PLUS is formulated ideally for the food, beverage and catering industries and contains a blend of sodium hydroxide, inorganic phosphate, organic threshold agent and a special new sequestrant, which is made from natural, replaceable and sustainable raw materials. In addition this new sequestrant is readily biodegradable and has excellent ecotoxicological properties.

ULTRAGLIDE PLUS is suitable for use in water of all hardnesses.

ULTRAGLIDE PLUS's formulation ensures excellent cleaning power with no foaming, yet with its controlled alkalinity is also gentle to glassware and will not cause blooming.

At this level of controlled alkalinity ULTRAGLIDE PLUS is classified as irritant and NOT corrosive, thus controlling the hazard for staff handling the product.

Application

Use at 0.2 - 0.5%v/v through an auto-dosing pump directly into the glasswashing machine. Best results are achieved using warm solutions, typically 55°C.

Test Method

A suitable test method is available on request.

Properties

Appearance:	Clear liquid
Colour	Very pale yellow
Odour	None
Specific Gravity (20°C):	1.09
Freezing Point (°C):	0
pH (0.5%v/v):	11.2
Solubility in water:	Soluble
COD:	Not determined
Nitrogen (N) content:	Not determined
Phosphorus (P) content:	20.3 g/kg

Please note these are typical figures and do not constitute a specification.

Storage and Handling

Always store in original container away from extremes of temperature.

Read Safety Data Sheet (SDS) before handling product.

Pack sizes

2 x 5 litres

Issue 15/08/2008
